

Privacy Policy

Disabled Veterans Wish Foundation Indiana respects the privacy interests and preferences of our donors and website visitors. We are committed to full transparency in outlining what information we collect about donors and visitors, how it is used and how you can opt-out of those programs (online or traditional communications) if you so choose.

Personal contact information we collect and what we do with it

When you are making a donation, or purchasing a product, Disabled Veterans Wish Foundation Indiana asks you for personal contact information such as your name, mailing address, phone number and e-mail address. We may use this contact information to provide you with a receipt or financial report; to contact you to clarify or obtain information about an order you placed, or a donation you made.

If you make a donation, we may contact you from time to time (by a staff member or volunteer - we do not use outside vendors to communicate with donors nor do we engage in telemarketing) to offer you an opportunity to make another gift, or to offer services from third parties that will directly benefit Disabled Veterans Wish Foundation Indiana. We will always give you the opportunity to opt-out of future communications from us.

Personal billing information we collect and what we do with it

In addition to personal contact information, we ask for billing information, such as your billing address and credit card number, when you make a donation or purchase a product. We use secure servers to gather and process your billing information. These secure servers are hosted by our agent, Transaction Express, which is bound by our site policies. Your billing information is not shared with any other organizations, and your credit card number is not retained once your transaction has been authorized and processed.

Financial transactions and our secure servers

All financial transactions on our website, specifically donations and purchases, are managed through our agent, Transaction Express, which is TRUSTe certified. All transactions use an encrypted channel, take place on secure servers and occur in real time. No financial data, such as your credit card number, is transferred via a less-secure channel, such as encrypted e-mail, for processing. Moreover, once your transaction has been completed, your credit card number is not retained.

Also, with the exception of credit card numbers, which are not retained, you can view and request changes to all the information you have given us, including any mailing lists you may be on, by contacting us.
